NOTICE OF PRIVACY PRACTICES

Effective April 1, 2014

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review this notice carefully.

Protected health information ("PHI") is information about you, including demographic information, that may identify you and that relates to your past, present or future physical or mental health or condition and related health care services. This Notice of Privacy Practices describes how we may use and disclose your PHI to carry out treatment, payment or health care operations and for other purposes that are permitted or required by law. It also describes your rights to access and control your PHI. We are required by law to maintain the privacy of PHI and to provide you with notice of our legal duties and privacy practices with respect to PHI, and to notify affected individuals following a breach of unsecured protected health information.

We are required to abide by the terms of this Notice of Privacy Practices. We may change the terms of our notice at any time. The new notice will be effective for all PHI that we maintain at that time. Upon your request, we will provide you with any revised Notice of Privacy Practices. You may request a revised version by accessing our website, calling the office to request that a revised copy be sent to you by mail or email, or asking for one at the time of your next appointment.

How we may use and disclose your PHI:

· **For Care or Treatment**: Your PHI may be used and disclosed to those who are involved in your care for the purpose of providing, coordinating, or managing your services. We disclose medical information to our employees and others who are involved in providing the care you need. For example, we may share your medical information with other physicians or other health care providers who referred you to us, or will provide services that we do not provide. Or we may share this information with a pharmacist who needs it to dispense a prescription to you, or a laboratory that performs a test.

Your authorization is required to disclose PHI to any other provider not currently involved in your care.

· **For Business Operations**: We may use or disclose, as needed, your PHI in order to support our business activities including, but not limited to, quality assessment activities, employee review activities, licensing, and conducting or arranging other business activities.

We will share your PHI with third party "business associates" that perform services (for example, billing or testing services) for our practice. Whenever an arrangement between our office and a business associate involves the use or disclosure of your PHI, we have a written contract that contains terms to protect the confidentiality and security of your PHI.

We may use and disclose PHI to contact you with appointment reminders or prescription information by phone or email. If you are not home, we may leave this information on your voicemail or with the person answering the phone. We may also use and disclose PHI by having you sign a sheet for prescription pick-up. At an appointment, we may call out your name when we are ready to see you.

· **Required by Law**: As required by law, we will use and disclose your PHI, but we will limit our use or disclosure to the relevant requirements of the law. For example, we must make disclosures to the Secretary of the Department of Health and Human Services for the purpose of investigating or determining our compliance with the requirements of the Privacy Rule, if so required.

· **Without Authorization**: Applicable law and ethical standards permit us to disclose information about you without your authorization only in a limited number of other situations. Examples of some of the types of uses and disclosures that may be made without your authorization are those that are:

- Required by Law, such as the mandatory reporting of child abuse or neglect or mandatory government agency audits or investigations (such as the health department)
- Required by Court Order
- Necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public. If information is disclosed to prevent or lessen a serious threat it will be disclosed to a person or persons reasonably able to prevent or lessen the threat, including the target of the threat.

· **Verbal Permission**: We may use or disclose your information to family members that are directly involved in your receipt of services with your verbal permission.

· **With Authorization**: Uses and disclosures not specifically permitted by applicable law will be made only with your written authorization, which may be revoked. Your explicit authorization is required to release notes and PHI for the purposes of marketing, subsidized treatment communication and for the sale of such information.

· **Right of Access to Inspect and Copy**. You have the right, which may be restricted only in exceptional circumstances or with documents released to us, to inspect and copy PHI that may be used to make decisions about service provided. This means you may inspect and obtain a copy of your PHI for so long as we maintain the PHI. You may obtain your medical record that contains medical and billing records and any other records that your physician and the practice use for making decisions about you. As permitted by federal or state law, we may charge you a reasonable copy fee for a copy of your records.

· **Right to Request Restrictions**. You have the right to request a restriction or limitation on the use or disclosure of your PHI. This means you may ask us not to use or disclose any part of your PHI for the purposes of treatment, payment or health care operations. You may also request that any part of your PHI not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice of Privacy Practices. Your request must state the specific restriction requested and to whom you want the restriction to apply. We are not required to agree to your request.

· **Right to Request Confidential Communication**. You have the right to request that we communicate with you about PHI matters in a specific manner (e.g. telephone, email, postal mail, etc.) We will accommodate reasonable requests. We may also condition this accommodation by asking you for information as to how payment will be handled or specification of an alternative address or other method of contact.

· **Right to Amend**. If you feel that the PHI we have about you is incorrect or incomplete, you have a right to request that we amend the information. You must make a request to amend in writing, and include the reasons you believe the information is inaccurate or incomplete. However, we are not required to agree to the amendment or change your information.

This right applies to disclosures for purposes other than treatment, payment or health care operations as described in this Notice of Privacy Practices. We may charge you a reasonable fee if you request more than one accounting in any 12-month period.

· **Right to Receive Notification in the Event of a Breach.** You have a right to receive notification if there is a breach of your PHI. After learning of a breach, we must provide notice to you without unreasonable delay and in no event later than 60 calendar days after discovery of the breach, unless a law enforcement official requires us to delay the breach notification

· **Right to a Copy of this Notice**. You have the right to a copy of this notice.
